My Projects

E-Commerce Platform

An online marketplace where users can browse products, add items to their cart, and complete purchases through a secure checkout process. The platform includes user authentication, payment gateway integration, and an admin panel for managing products and orders.

React.jsTailwind CSSLaravelMySQL + MongoDBStripeFirebase

View on GitHub

Task Management Application

A productivity tool that allows users to create, manage, and track their tasks. Users can categorize tasks, set deadlines, and collaborate with team members in real time.

NextJSPostgreSQLOAuth 2.0

View on GitHub

Healthcare Appointment System

A system that allows patients to book appointments with doctors, receive notifications, and manage medical records. Doctors can manage schedules and access patient history.

React.jsSpring BootMongoDB
